

17GX

GX 460

301-hp,¹ 4.6-liter V8; dual Variable Valve Timing with intelligence (VVT-i); six-speed automatic Electronically Controlled Transmission with intelligence (ECT-i); full-time four-wheel drive (4WD) and seven-passenger seating.

GX 460 PREMIUM

Features additional upgrades including an interior trimmed in supple leather and Mahogany wood accents, a third zone of climate control for rear passengers, Intuitive Parking Assist² and 3-D Navigation.³ Available Sport Design Package.

GX 460 LUXURY

Features the above, plus an Adaptive Variable Suspension, an interior trimmed with semi-aniline leather, second-row captain's chairs⁴ and a power-folding third row. Available Sport Design Package.

INTRODUCING THE 2017 GX

UNLIMITED POSSIBILITIES. UNCOMPROMISING STANDARDS.

Jump in. And journey on. Whether it's rugged terrain⁵ or an urban landscape, the GX gets you there with confidence and in exceptional comfort. Along the way, available 3-D Navigation³ helps keep you on track, while full-time 4WD and available Crawl Control⁶ give you the capability to carve your own trail.

BUILT FOR ADVENTURE

When spontaneity calls, answer it with a 4.6-liter V8 engine that delivers 329 lb-ft of torque.¹ Downhill Assist Control (DAC)⁷ works with the Anti-lock Braking System and Active Traction Control to help keep the GX at a measured, constant descent speed, while Hill-start Assist Control (HAC)⁷ is designed to increase control during climbing or stopping by helping to prevent rollback. Up, down or jetting around town, the GX is up to the challenge.

INDULGE YOUR WHIMS

AND YOURSELF

In the GX, the serene cabin features 10-way power-adjustable front seats that include lumbar adjustability for a blissful journey. The GX interior is meticulously crafted right down to the Linear Espresso or available Mahogany wood trim. Wherever you roam, the GX provides indulgence for all of the senses.

With NuLuxe or available leather trim, sumptuous comfort envelops all seven passengers. Available heated and ventilated front seats, heated outboard second-row seats and three-zone climate control can make the trip as enjoyable as the destination. And a tilt-and-slide seat feature simplifies passenger-side access to the third row.

VERSATILITY THAT KNOWS NO BOUNDS

New for 2017, available second-row captain's chairs⁴ enhance passenger accommodations to provide a first-class experience. This seating arrangement provides each second-row passenger with individual, contoured seats. You'll also find easy access to the third-row seats, which fold flat into the cargo-area floor manually or, when equipped, with the press of a button.

For added convenience, the rear window lets you place small items like shopping bags in the vehicle without opening the rear door.

CONQUER EXPECTATIONS

Wherever it roams, the GX has what it takes to power through. On-road, the six-speed sequential-shift automatic transmission provides a smooth ride, effortless acceleration and fast shifting response. And, when street turns to tundra, you'll enjoy the benefits of a full-time 4WD system that features a TORSSEN® torque-sensing limited-slip center differential.⁹ Combined with four-wheel Active Traction Control, this system efficiently delivers engine power to the wheels with traction, helping to minimize tire spin in slippery conditions.

For maximum off-road⁵ traction, the center differential can be locked with the press of a button.

WIELD THE POWER WITHIN

The GX boasts a 301-hp¹ 4.6-liter V8 engine that's as intelligent as it is imposing. To help ensure power is used in the right way at the right time, dual Variable Valve Timing with intelligence helps to improve low-speed torque and high-speed horsepower, anticipating the power you need and delivering it instantaneously.

Personalize your driving experience using the three settings of the available Adaptive Variable Suspension (Comfort, Normal and Sport), which adjust the suspension to make the ride as engaging or smooth as you'd like it to be.

POWER CENTRAL

The GX was specifically engineered with power to spare—and then some. So bring the adventure along with you. Robust body-on-frame construction and 329 lb-ft of torque¹ at low rpm enable the GX to tow up to 6,500 pounds.^{9,10} An available integrated tow hitch receiver,^{9,10} designed for the GX and built to Lexus standards, opens up this world of possibilities.

And, for peace of mind, Trailer Sway Control¹¹ helps detect and prevent excessive trailer movement. To help reduce sway, braking is applied independently to each wheel and the throttle is moderated to help reduce vehicle speed. A flashing indicator alerts the driver when the system is taking corrective measures.

ROCK STEADY

Commanding some of the most daunting terrain is made easy with the advanced off-road⁵ technology of the GX. With the press of a button, available Crawl Control⁶ carefully manages the throttle and brakes to help you maintain a slow, consistent speed over rugged terrain.⁵ All without your feet touching the pedals.

DYNAMIC SUSPENSION

The ingenious Kinetic Dynamic Suspension System is designed to change with the terrain.

By automatically fixing the front and rear stabilizer bars in place when on-road, it helps to minimize body lean while cornering. Off-road⁵, it frees each wheel for more independent movement, so the wheel on uneven ground can react while the other wheels are relatively unaffected. Whether you're navigating rocky mountains⁵ or busy streets, the GX is equipped for either task.

INNOVATION AT HAND

From available rear-seat climate controls and a dual-screen Rear-Seat Entertainment System¹² to a wide array of advanced safety features, innovation surrounds you every mile along the way.

THE NEXT LEVEL OF CONVENIENCE

Available Lexus Enform¹³ elevates connected technology into a new era of concierge-level convenience. From emergency assistance to a live destination specialist and more, our premium suite of connected technology offers peace of mind with every drive.

SAFETY CONNECT

Whether you're involved in an accident, your vehicle is stolen, or the unexpected occurs, assistance can be sent directly to your vehicle's GPS location.¹⁴

SERVICE CONNECT

Keeping up with your vehicle's health has never been easier. Get updates on everything from fuel level and mileage, to maintenance alerts and more via e-mail or the mobile app.¹⁵

REMOTE

The Lexus Enform Remote¹⁶ mobile app helps you lock and unlock doors, start the engine, resume climate settings, find your vehicle in a parking lot and monitor guest drivers.

DESTINATIONS

Get directions and destinations delivered by a real person with 24-hour, en-route navigation assistance.¹³

APP SUITE

Search local listings, stream music, place restaurant reservations, buy movie tickets and more—all from the center console.¹³

SAFETY. COMFORT. CONFIDENCE.

DYNAMIC RADAR CRUISE CONTROL

Available Dynamic Radar Cruise Control¹⁷ can help maintain a preset distance from the car traveling in front of you by automatically reducing the throttle and even applying the brakes (at speeds above 25 mph). Once the road clears, the GX returns to its preset speed.

BLIND SPOT MONITOR WITH REAR CROSS-TRAFFIC ALERT

To help you change lanes with confidence, the available Blind Spot Monitor¹⁸ is designed to detect and warn you of vehicles approaching or positioned in the adjacent lanes. Rear Cross-Traffic Alert¹⁹ can provide peace of mind when backing out of a parking space by notifying you of vehicles approaching from either side.

PRE-COLLISION SYSTEM

To help prepare for and avoid potential front collisions, the available Pre-Collision System²⁰ includes a Driver Attention Monitor²¹ that is designed to warn you if you're facing away from the road when an obstacle is detected ahead. Should it determine a frontal collision is likely, it's designed to automatically prepare Brake Assist²² for increased braking response and can even automatically begin braking under certain conditions.

WIDE-VIEW FRONT AND SIDE MONITOR SYSTEM

The GX helps you see the world around you. In addition to a standard backup camera,²³ this available system²⁴ features a wide-angle front-mounted camera to help you see around blind corners, such as when exiting a parking garage. A second camera located underneath the passenger-side mirror is particularly useful when parallel parking, navigating narrow passageways and in tight parking spaces.

MARK LEVINSON® AUDIO

Designed exclusively for Lexus, the available Mark Levinson Premium Surround Sound Audio System²⁵ features 7.1-channel architecture, 17 speakers and 330 watts of maximum power. The resulting audio experience immerses the cabin in multidimensional sound that was once reserved for six-figure home audio systems.

REAR-SEAT ENTERTAINMENT

Rear-seat passengers can enjoy individualized entertainment with the available dual-screen Rear-Seat Entertainment System.¹² With 7.0-inch LCD screens located behind the driver's and front passenger's headrests, the system features a pair of wireless headphones²⁶ and can be used as a DVD player, audio player or game console via audio and video input jacks.

3-D NAVIGATION

This available voice-activated system³ can map millions of points of interest across the country and can display information in English, French or Spanish. And, in addition to offering up-to-date traffic and weather information,²⁷ 3-D city views, and simulated views of approaching highway junctions, it displays the current speed limit and can automatically identify nearby gas stations if you begin to run low on fuel.

VOICE RECOGNITION

Command your GX with ease. Advanced voice command, available with Navigation,³ enables you to place compatible *Bluetooth*^{®28}-enabled phone calls and operate climate, audio and navigation functions using normal, everyday speech. If you say, "It's too hot in here," for example, the climate control will automatically lower the temperature by four degrees. With Enhanced *Bluetooth* technology,²⁸ compatible *Bluetooth*²⁸ mobile-phone address-book contacts can be viewed and accessed on the Navigation System³ display or via voice command.

STYLE, AMPLIFIED.

Building upon the dynamic style of the Lexus GX, an all-new Sport Design Package introduces an even more chiseled look, from its commanding front fascia treatment to darker rear taillamp housings and more. Further amplifying its presence, the Sport Design Package sets itself apart from the crowd with 18-inch Gunmetal Metallic alloy wheels.²⁹

PACKAGES

NAVIGATION PACKAGE

- A Navigation System³ and Lexus Enform App Suite¹³
- Voice command
- High-resolution color LCD display
- Lexus Enform Destinations.¹³ Complimentary for the first year of ownership

MARK LEVINSON PREMIUM SURROUND SOUND AUDIO PACKAGE

- Includes Navigation Package, plus:
- B Mark Levinson 17-speaker, 330-watt Premium Surround Sound Audio System
- 7.1-channel architecture

DRIVER SUPPORT PACKAGE (Special order on GX Luxury)

- Includes Navigation and Mark Levinson Premium Surround Sound Audio Packages, plus:
- C Pre-Collision System²⁰ with Dynamic Radar Cruise Control¹⁷
- Driver Attention Monitor²¹
- D Lane Departure Alert⁴⁰
- E Intelligent high-beam headlamps⁴¹
- Wide-view Front and Side Monitor system²⁴
- F Crawl Control⁶

SPORT DESIGN PACKAGE (GX Premium, GX Luxury)

- G 18-inch split-six-spoke alloy wheels²⁹ with Gunmetal Metallic finish
- H Sport Design front fascia and lower grille surround
- Sport Design side mirrors with chrome detail
- Sport Design rear valance
- Chrome exhaust tip
- Scarlet taillamps

EXTERIOR

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *GX Warranty and Services Guide* at your Lexus dealer for details.

DISCLOSURES **1.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **2.** Do not rely exclusively on the Intuitive Parking Assist system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See *Owner's Manual* for details. **3.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services & programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See *Owner's Manual* for details. **4.** Available second-row captain's chairs reduce vehicle seating capacity to a maximum of six passengers. **5.** The GX 460 is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Lexus encourages responsible operation to help protect you, your vehicle and the environment. Seatbelts should be worn at all times. Do not allow passengers to ride in cargo area. Tow hitch receivers/ball mount kits are not intended to provide crash protection. **6.** Crawl Control is designed for driving on difficult terrain at low speeds. It assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The GX 460 is designed to meet off-road driving requirements, but off-roading is inherently dangerous. Always wear seatbelts. See *Owner's Manual* for details. **7.** Downhill Assist Control (DAC) is designed to help the driver maintain vehicle control and speed on steep downhill descents. Hill-start Assist Control (HAC) is designed to help minimize backward rolling on steep ascents. Neither system is a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. See *Owner's Manual* for further details. **8.** TORSEN® is a registered trademark of Zexel Torsen, Inc. **9.** Please consult your Lexus dealer or *Owner's Manual* for towing and load specifications. **10.** Before towing, confirm your vehicle and trailer are compatible, hooked up properly and you have any necessary additional equipment. If gross trailer weight is above 5,000 lb (2,268 kg), it is necessary to use a weight-distributing hitch with sufficient capacity. Do not exceed any Weight Ratings and follow all instructions and cautions from your trailer-hitch manufacturer and vehicle *Owner's Manual*. The maximum amount you can tow depends on the total weight of any cargo, occupants and available equipment. **11.** Trailer Sway Control (TSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See *Owner's Manual* for details. **12.** A single-disc DVD player is included. A separate DVD player or game system utilizing the center console's video/audio inputs is required in order to use the split-screen function of the dual-screen system. **13.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com/enform for details. **14.** Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. **15.** Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. **16.** Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or nearby). If vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Functionality depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & *Owner's Manual*. Data charges may apply. Registration, app download are required. Must have an active Safety Connect subscription. Annual fee required after 1-year trial. **17.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness depends on many factors, such as weather, traffic and road conditions. See *Owner's Manual* for details. **18.** Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. See *Owner's Manual* for details. **19.** Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See *Owner's Manual* for details. **20.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See *Owner's Manual* for details. **21.** The Driver Attention Monitor is designed to alert the driver if a potential hazard is detected ahead and the driver's face appears to be turned away. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors such as speed, driver input and road conditions. See *Owner's Manual* for details. **22.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. See *Owner's Manual* for details. **23.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Environmental conditions may limit effectiveness and view may become obscured. See *Owner's Manual* for details. **24.** The Wide-view Front and Side Monitor system does not provide a comprehensive view of the front and side areas of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Environmental conditions may limit effectiveness and view may become obscured. See *Owner's Manual* for details. **25.** Mark Levinson® is a registered trademark of Harman International Industries, Inc. **26.** Headphones are for passenger use only. Do not use while operating vehicle. **27.** HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. **28.** Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier. **29.** 18-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **30.** Cargo and load capacity limited by weight and distribution. **31.** Maximum possible cargo and load capacity indicated. **32.** Preliminary mileage estimates determined by Lexus. EPA mileage estimates not available at time of publishing. Actual mileage will vary. **33.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **34.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloaa.org. **35.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. **36.** Always drive safely, obey traffic laws & focus on the road while driving. Siri® is available only on iPhone® 4s or later, iPad® w/Retina® display, iPad® mini, & iPod® touch (5th gen.) & requires Internet access. Siri® is not available in all languages or all areas & features vary by area. Some Siri® functionality & commands are not accessible in the vehicle. Data charges may apply. See apple.com & phone carrier for details. Siri® is a registered trademark of Apple Inc. **37.** All the airbag systems are Supplemental Restraint Systems. All airbags (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: Typically, frontal and knee airbags inflate in frontal collisions; side torso and side curtain airbags inflate in side collisions; and Roll-Sensing Curtain Airbags inflate at a severe roll angle or roll rate. To decrease the risk of injury from an inflating airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating airbag may cause serious injury or death. See *Owner's Manual* for further information/warnings. **38.** iPhone® and iPad® are registered trademarks of Apple Inc. All rights reserved. **39.** FaceTime® is a registered trademark of Apple Inc. All rights reserved. **40.** Lane Departure Alert is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See *Owner's Manual* for details. **41.** Intelligent high beams operate at speeds above 21 mph. Factors such as dirty windshield, weather, lighting & terrain limit effectiveness, requiring driver to manually operate the high beams. See *Owner's Manual* for details. **42.** F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F SPORT Accessories. These warranties do not cover maintenance services such as replacement of brake pads/linings and clutch linings or noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F SPORT Accessories warranty, the new-vehicle warranty or both. F SPORT is a trademark of Toyota Motor Corporation. Products available through participating Lexus dealers. **43.** Genuine Lexus Paint Protection Film is designed for specific sections of the hood, front fenders and side mirror housings. It can also be applied to select portions of the front bumper for an additional charge. Lexus Genuine Accessory Warranty will only apply when the installation is performed by a trained Lexus-approved installer. See Lexus dealer for details. **44.** This floor mat was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat must be secured with its fasteners. Do not install a floor mat on top of an existing floor mat.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
